Full-Stack Developer with 4+ years of experience building scalable web applications using **JavaScript** / **TypeScript** and **Python**. Proficient in architecting robust backends with **Node.js** and **Flask**, while managing complex data structures across both PostgreSQL and MongoDB. Expertise in State Management and modern frontend frameworks, combined with a disciplined approach to Agile/Scrum methodologies to deliver high-quality, end-to-end software solutions.

Education

M.Sc. in Computer Science

Sep 2021 – Jul 2025

Università degli Studi di Milano

- Thesis: A fairness evaluation tool for **ML** models — backend developed with **Python(Flask)**, **scikit-learn**, TPOT, and Fairlearn; interactive frontend with **React.js** and Chart.js.

B.Sc. in Information Technology

2011 – 2015

Dade Pardazi Iran Institute

- Thesis: A web application of student study plan process, employing **Object-Oriented Programming** and **MVC**.

Work Experience

AI Full Stack Developer

Thesis

Dec 2024 – Jul 2025

- Developed a full-stack web application for evaluating fairness in AI models using Flask (Python) and React
- Designed and implemented RESTful APIs with Flask, using Pydantic for schema validation and modular routing to structure backend services.
- Built a React frontend with modern tooling (Axios, TanStack Query, Zod) for state management, data validation, and efficient API integration.
- Implemented interactive data visualizations with Chart.js to analyze model performance and fairness metrics.
- Optimized frontend performance through code splitting, lazy loading, and modular component architecture.

Software Developer
ZEROLATENCY, Bergamo, Italy

Aug 2023 – Mar 2025

- Developed and maintained scalable RESTful APIs using **Python (Flask)** and **Node.js (Express)**, leveraging **PostgreSQL** for efficient data persistence and real-time video translation services.
- Architected high-performance applications using **Next.js**, strategically implementing SSR, ISR and SSG to maximize SEO and Core Web Vitals.
- Managed the integration of RESTful APIs and state management using **Redux Toolkit**, **Zustand**, ensuring robust and predictable UI behavior.
- Collaborated daily in an Agile/Scrum environment, using Jira for sprint tracking and Git for collaborative version control and code reviews.

Frontend Developer
RESPINA, Tehran, Iran (Remote)

Dec 2020 – Apr 2023

- Built and maintained UI components using **React**, focusing on semantic HTML and technical SEO best practices.
- Developed "mobile-first" Responsive Designs using modern CSS framework like **Tailwind** and **Bootstrap**, ensuring seamless experiences across all devices.
- Participated in the team's development workflow using **Git/GitHub**, contributing to codebase maintenance and documentation.
- Attended project kickoff and status meetings to understand project goals and contribute to the successful delivery of features.

Frontend Developer Intern
RESPINA, Tehran, Iran (Remote)

Jan 2020–Dec 2020

- Implemented accessible UI components following WCAG guidelines, ensuring the application was usable for all users regardless of disability.
- Translated Figma/Adobe XD designs into pixel-perfect, Responsive web pages using semantic HTML and modern CSS.
- Learned fundamentals of responsive design and cross-browser compatibility by working on legacy dashboard components.
- Participated in daily stand-ups and contributed to small UI bug fixes as part of an Agile team.

Technical Skills

- **Backend & Databases:** Node.js (Express), Python (FastAPI); MySQL, MongoDB, PostgreSQL.
- **Frontend Architecture:** React, Next.js, TypeScript, Tailwind CSS, Shadcn, MUI.
- **Data & API Management:** Axios, Redux Toolkit, Zustand, React Query (TanStack), RESTful APIs, WebSockets.
- **Testing & Quality:** Unit & Integration Testing (Vitest, Jest, React Testing Library).

- **Cloud & Authentication:** AWS (S3/CloudFront/Amplify/Cognito).
- **DevOps & Infrastructure:** Docker , CI/CD (GitHub Actions, Jenkins), Vercel, Git Flow.
- **Design & Methodologies:** Agile (Scrum/Jira), Serverless, Component-driven Development.

Languages

- English – Professional
- Italian – Intermediate (B1)
- Persian – Native
- Azerbaijani – Mother Language

Additional Information

- Smart working possibility
- Valid Italian residence and work permit.
- Strong communication skills (written & spoken English).
- Proactive and collaborative, with attention to detail in code and design.
